MACEDON RANGES
WINE FESTIVAL

Festival Passport

17-19 November

Macedon Ranges Wine

The Macedon Ranges wine region includes over 40 boutique family-owned wineries offering small batch, high quality wines in an iconic location—less than an hour from Melbourne.

We may be less well known than other wine regions, but that doesn't stop us from producing some of the best cool climate wines in Australia. With vineyards at altitudes ranging from 300-800 metres, we're the coolest mainland winegrowing region in Australia - making it an ideal location for a number of varietals.

Pinot Noir, Chardonnay and Sparkling Wines are what we're

most known for—and we do those exceptionally well—but that's not all we make. In the northern part of the region, you'll also find big, robust reds including Shiraz and Cabernet Sauvignon, and in much of the region, a number of aromatic whites, like Riesling and Gewürztraminer.

It may be the coolest wine region in mainland Australia, but you'll find a warm welcome and unpretentious cellar doors. In fact, you're likely to have your glass filled by the winemakers themselves. So leave the laneways of Melbourne behind and explore the laneways of the Macedon Ranges for stunning scenery, warm hospitality and some excellent wine.
